By signing acknowledgement (**electronically as detailed on page 6 and 7**), each employee is indicating that he/she has read and understands that, as a condition of continued employment, compliance with the Drug-Free Workplace Policy is required and violators may be suspended and/or terminated.

Additionally, the employee signature indicates that he/she has been advised of the District policies, guidelines, and trainings, as listed above. **The reading component and the online sexual harassment training should be completed no later than August 31, 2022, and confirmed by electronic signature (see page 6 and 7 for instructions).** Those hired after the start of the new school year should complete the reading component and online training within thirty days of their start date.

NOTE: All individuals employed by Escambia County School District will be issued an employee ID badge bearing a photo of the employee that shall be worn and visible at all times while at work in order to promote a safe learning and working environment. The employee photo will also be utilized in the School District's employee management system and email system as part of the School District's security protocol to protect the safety and well-being of students and staff.

The following individuals will be responsible for ensuring that each department head, supervisor, and manager, in the appropriate worksite areas receives the subject information and that **all employees under their supervision/direction** in the various district departments/schools complete the electronic acknowledgement or if accommodation is necessary, a paper acknowledgement. State law mandates that all school personnel shall report cases of suspected child abuse or neglect to the Florida Abuse Hotline. When in doubt about whether a case merits a call to the registry, it is advised to err on the side of caution and let the Abuse Hotline Counselor make the decision of whether the incident falls within the reasonable cause area. Florida Statute requires mandatory reporters of child abuse/neglect to provide his/her name to the Abuse Hotline Counselor when reporting. It is suggested that you notify your building level administrator, department head, manager, director, or supervisor after reporting to the Florida Abuse Hotline.

Child Abuse -- Look for the Patterns

Serious abuse usually involves a combination of factors. While a single sign may not be significant, a pattern of physical or behavioral signs is a serious indicator and should be reported.

If a child tells **YOU** about abuse:

Be a good listener. Show that you understand and believe what the child tells you. Encourage, but don't pressure him/her to talk. Ask open-ended questions.

Be supportive. Tell the child he/she did the right thing by coming to you. Stress that he/she is not to blame. Let the child know that you want to help.

Don't overreact. This can frighten the child or prevent him/her from telling you more. Do not talk negatively about the suspected abuser in front of the child.

Document and report it. Document your conversation as soon as you can. If possible, write down the child's exact words.

Don't delay. Never assume someone else will report the abuse. The sooner it is reported, the sooner the child and their family can be helped.

Who Must Report Abuse?

Doctors	Nurses
Social Workers	Police Officers
Child Care Workers	Teachers
Any Witnesses	Law Enforcement Officers

Any/All School Officials or Other School Personnel

Copyright Laws

The Board recognizes the interests and rights of copyright holders as defined in Title 17, United States Code, and neither authorizes nor condones any violation of the copyright law by any employee of the Board. All employees are responsible for adherence to the guidelines for copyrighted materials as published in the Copyrighted Materials document on the Media Services website.

Employees are expected to take all reasonable precautions to prevent unlawful copying or use of copyrighted materials. It is the intent of the Board that students be educated as to the legal and ethical issues raised by violation of the copyright law.

Supervision of Students

Students must be accompanied by an adult at all times. Students should not be placed in hallways for discipline reasons. In case of an emergency, notify the closest teacher.

1003.31, F.S., Students subject to control of school.—

(1) Subject to law and rules of the State Board of Education and of the district school board, each student enrolled in a school shall:

- (a) During the time she or he is being transported to or from school at public expense;
- (b) During the time she or he is attending school;
- (c) During the time she or he is on the school premises participating with authorization in a school-sponsored activity; and
- (d) During a reasonable time before and after the student is on the premises for attendance at school or for authorized participation in a school-sponsored activity, and only when on the premises, be under the control and direction of the principal or teacher in charge of the school, and under the immediate control and direction of the teacher or other member of the instructional staff or of the bus driver to whom such responsibility may be assigned by the principal. However, the State Board of Education or the district school board may, by rules, subject each student to the control and direction of the principal or teacher in charge of the school during the time she or he is otherwise en route to or from school or is presumed by law to be attending school. Each district school board, each district school superintendent, and each school principal shall fully support the authority of teachers, according to s. [1003.32](#), and school bus drivers to remove disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students from the classroom and the school bus and, when appropriate and available, place such students in an alternative educational setting.

(2) There is a rebuttable presumption that the term “reasonable time” means 30 minutes before or after the activity is scheduled or actually begins or ends, whichever period is longer. A school or district school board may, by policy or other formal action, assume a longer period of supervision. Casual or incidental contact between school district personnel and students on school property shall not result in a legal duty to supervise outside of the reasonable times set forth in this section, provided that parents shall be advised in writing twice per year or by posted signs of the school’s formal supervisory responsibility and that parents should not rely on additional supervision. The duty of supervision shall not extend to anyone other than students attending school and students authorized to participate in school-sponsored activities.

(3) Nothing shall prohibit a district school board from having the right to expel, or to take disciplinary action against, a student who is found to have committed an offense on school property at any time if:

- (a) The student is found to have committed a delinquent act which would be a felony if committed by an adult;
- (b) The student has had adjudication withheld for a delinquent act which, if committed by an adult, would be a felony; or
- (c) The student has been found guilty of a felony.

However, if the student is a student with a disability, the disciplinary action must comply with the procedures set forth in State Board of Education rule.

(4) Each student enrolled in a school may be required to take the following school child’s daily conduct pledge:

- (a) I will be respectful at all times and obedient unless asked to do wrong.
- (b) I will not hurt another person with my words or my acts, because it is wrong to hurt others.
- (c) I will tell the truth, because it is wrong to tell a lie.
- (d) I will not steal, because it is wrong to take someone else’s property.
- (e) I will respect my body, and not take drugs.

(f) I will show strength and courage, and not do something wrong, just because others are doing it.

(g) I pledge to be nonviolent and to respect my teachers and fellow classmates.

History.—s. 126, ch. 2002-387; s. 35, ch. 2003-391.

1003.32, F.S., Authority of teacher; responsibility for control of students; district school board and principal duties.—Subject to law and to the rules of the district school board, each teacher or other member of the staff of any school shall have such authority for the control and discipline of students as may be assigned to him or her by the principal or the principal's designated representative and shall keep good order in the classroom and in other places in which he or she is assigned to be in charge of students.

(1) In accordance with this section and within the framework of the district school board's code of student conduct, teachers and other instructional personnel shall have the authority to undertake any of the following actions in managing student behavior and ensuring the safety of all students in their classes and school and their opportunity to learn in an orderly and disciplined classroom:

(a) Establish classroom rules of conduct.

(b) Establish and implement consequences, designed to change behavior, for infractions of classroom rules.

(c) Have disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students removed from the classroom for behavior management intervention.

(d) Have violent, abusive, uncontrollable, or disruptive students directed for information or assistance from appropriate school or district school board personnel.

(e) Assist in enforcing school rules on school property, during school-sponsored transportation, and during school-sponsored activities.

(f) Request and receive information as to the disposition of any referrals to the administration for violation of classroom or school rules.

(g) Request and receive immediate assistance in classroom management if a student becomes uncontrollable or in case of emergency.

(h) Request and receive training and other assistance to improve skills in classroom management, violence prevention, conflict resolution, and related areas.

(i) Press charges if there is a reason to believe that a crime has been committed on school property, during school-sponsored transportation, or during school-sponsored activities.

(j) Use reasonable force, according to standards adopted by the State Board of Education, to protect himself or herself or others from injury.

(k) Use corporal punishment according to school board policy and at least the following procedures, if a teacher feels that corporal punishment is necessary:

1. The use of corporal punishment shall be approved in principle by the principal before it is used, but approval is not necessary for each specific instance in which it is used. The principal shall prepare guidelines for administering such punishment which identify the types of punishable offenses, the conditions under which the punishment shall be administered, and the specific personnel on the school staff authorized to administer the punishment.

2. A teacher or principal may administer corporal punishment only in the presence of another adult who is informed beforehand, and in the student's presence, of the reason for the punishment.

3. A teacher or principal who has administered punishment shall, upon request, provide the student's parent with a written explanation of the reason for the punishment and the name of the other adult who was present.

(2) Teachers and other instructional personnel shall:

(a) Set and enforce reasonable classroom rules that treat all students equitably.

(b) Seek professional development to improve classroom management skills when data show that they are not effective in handling minor classroom disruptions.

(c) Maintain an orderly and disciplined classroom with a positive and effective learning environment that maximizes learning and minimizes disruption.

(d) Work with parents and other school personnel to solve discipline problems in their classrooms.

(3) A teacher may send a student to the principal's office to maintain effective discipline in the classroom and may recommend an appropriate consequence consistent with the student code of conduct under s. 1006.07. The principal shall respond by employing the teacher's recommended consequence or a more serious disciplinary action if the student's history of disruptive behavior warrants it. If the principal determines that a lesser disciplinary action is appropriate, the principal should consult with the teacher prior to taking disciplinary action.

(4) A teacher may remove from class a student whose behavior the teacher determines interferes with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn. Each district school board, each district school superintendent, and each school principal shall support the authority of teachers to remove disobedient, violent, abusive, uncontrollable, or disruptive students from the classroom.

(5) If a teacher removes a student from class under subsection (4), the principal may place the student in another appropriate classroom, in in-school suspension, or in a dropout prevention and academic intervention program as provided by s. 1003.53; or the principal may recommend the student for out-of-school suspension or expulsion, as appropriate. The student may be prohibited from attending or participating in school-sponsored or school-related activities. The principal may not return the student to that teacher's class without the teacher's consent unless the committee established under subsection (6) determines that such placement is the best or only available alternative. Policy Against Bullying and Harassment (School Board Rule 7.18)

- (1) The policy of the District is that all of its students and employees have an educational setting that is safe, secure, and free from harassment and bullying of any kind. The district will not tolerate bullying and harassment of any type. Conduct that constitutes bullying and harassment, as defined herein is prohibited. Consistent with the intent and requirements of Section 1006.147, F.S., the District prohibits bullying or harassment by any student or employee on school property, during any school-related or school-sponsored program or activity, or during school-sponsored transportation.
- A. Definition of bullying and a definition of harassment:
1. Bullying means systematically and chronically inflicting physical hurt or psychological distress on one or more students or employees. It is further defined as unwanted and repeated written, verbal, or physical behavior, including any threatening, insulting, or dehumanizing gesture, by a student or adult, that is severe or pervasive enough to create an intimidating, hostile, or offensive educational environment; cause discomfort or humiliation; or unreasonably interfere with the individual's school performance or participation; and may involve but is not limited to:
 - a. teasing
 - b. social exclusion
 - c. threat
 - d. intimidation
 - e. stalking
 - f. physical violence
 - g. theft
 - h. sexual, religious, or racial harassment
 - i. public or private humiliation
 - j. destruction of property
 2. Harassment means any threatening, insulting, or dehumanizing gesture, use of data or computer software, or written, verbal or physical conduct directed against a student or school employee that:
 - a. places a student or school employee in reasonable fear of harm to his or her person or damage to his or her property;
 - b. has the effect of substantially interfering with a student's educational performance, opportunities, or benefits; or
 - c. has the effect of substantially disrupting the orderly operation of a school.
 3. Bullying and harassment also encompasses:
 - a. Retaliation against a student or school employee by another student or school employee for asserting or alleging an act of bullying or harassment. Reporting an act of bullying or harassment that is not made in good faith is considered retaliation.
 - b. Perpetuation of conduct listed in the definition of bullying or harassment by an individual or group with intent to demean, dehumanize, embarrass, or cause emotional or physical harm to a student or school employee by:
 - i. incitement or coercion;
 - ii. accessing or knowingly and willingly causing or providing access to data or computer software through a computer, computer system, or computer network within the scope of the district school system; or
 - iii. acting in a manner that has an effect substantially similar to the effect of bullying or harassment.
 4. Cyberbullying as defined in Section 1006.147
"Cyberbullying" means bullying through the use of technology or any electronic communication, which includes, but is not limited to, any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including, but not limited to, electronic mail, internet

communications, instant messages, or facsimile communications. Cyberbullying includes the creations of a webpage or weblog in which the creator assumes the identity of another person, or the knowing impersonation of another person as the author of posted content or messages, if the creation or impersonation creates any of the conditions enumerated in the definition of bullying. Cyberbullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons, if the distribution or posting creates any of the conditions enumerated in the definition of bullying.

- (2) Description of the type of behavior expected from each student and school employee of a public K-12 educational institution:
- A. The District expects students to conduct themselves as appropriate for their levels of development, maturity, and demonstrated capabilities with a proper regard for the rights and welfare of other students and school staff, the educational purpose underlying all school activities, and the care of school facilities and equipment.
 - B. The District believes that standards for student behavior must be set cooperatively through interaction among the students, parent(s)/guardian(s), staff, and community members producing an atmosphere that encourages students to grow in self-discipline. The development of this atmosphere requires respect for self and others, as well as for district and community property on the part of students, staff, and community members. Since students learn by example, school administrators, faculty, staff, and volunteers will demonstrate appropriate behavior, treat others with civility and respect, and refuse to tolerate bullying or harassment.
 - C. The District upholds that bullying or harassment of any student or school employee is prohibited:
 - 1. during any education program or activity conducted by a public K-12 educational institution;
 - 2. during any school-related or school-sponsored program or activity;
 - 3. on a school bus of a public K-12 educational institution; or
 - 4. through the use of data or computer software that is accessed through a computer, computer system, or computer network of a public K-12 education institution.
 - D. All administrators, faculty, and staff, in collaboration with parents, students, and community members, will incorporate systemic methods for student and staff recognition through positive reinforcement for good conduct, self-discipline, good citizenship, and academic success, as seen in the required school plan to address positive school culture and behavior (aka District Intervention Matrix and School Wide Behavior Management Plans). Student rights shall be explained as outlined in this policy and in the District Intervention Matrix, School Wide Behavior Management Plans and the School District of Escambia County *Rights and Responsibilities Handbook*.
 - E. Proper prevention and intervention steps shall be taken based on the level of severity of infraction as outlined in the District Intervention Matrix, School Wide Behavior Management Plans and the School District of Escambia County *Rights and Responsibilities Handbook*.
 - F. Consequences for students, employees, visitors, or volunteers of a public K-12 educational institution who commit an act of bullying or harassment, including whether a particular action or incident constitutes a violation of this policy, requires a determination based on all of the facts and surrounding circumstances. The physical location or time of access of a computer-related incident cannot be raised as a defense in any disciplinary action. Such consequences are:
 - 1. Consequences for students shall range from positive behavioral interventions up to and including suspension or expulsion, as outlined in the School District of Escambia County *Rights and Responsibilities Handbook*.
 - 2. Consequences for employees shall be in accordance with district policies, procedures, and agreements. Additionally, egregious acts of harassment by certified educators may result in a sanction against an educator's state issued certificate. (See

6A-10.081, F.A.C., The Principles of Professional Conduct of the Education Profession in Florida.)

3. Consequences for visitors or volunteers shall be determined by the school administrator after consideration of the nature and circumstances of the act, including reports to appropriate law enforcement officials.
- G. Consequences for students, employees, visitors, or volunteers of a public K-12 educational institution who are found to have wrongfully and intentionally accused another of an act of bullying or harassment are as follows:
1. Consequences for students shall range from positive behavioral interventions up to and including suspension or expulsion, as outlined in the School District of Escambia County *Rights and Responsibilities Handbook*.
 2. Consequences for school employees shall be in accordance with district policies, procedures, and agreements.
 3. Consequences for visitors or volunteers, shall be determined by the school administrator after consideration of the nature and circumstances of the act, including reports to appropriate law enforcement officials.
- (3) Procedure for reporting an act of bullying or harassment, including provisions that permit a person to anonymously report such an act. (See District homepage “Report School Violence” hyperlink)
- A. At each school, the principal or the principal’s designee is responsible for receiving complaints alleging violations of this policy. All school employees are required to report alleged violations of this policy to the principal or the principal’s designee. All other members of the school community, including students, parent(s)/guardian(s), volunteers, and visitors are encouraged to report any act that may be a violation of this policy anonymously or in-person to the principal or principal’s designee.
 - B. The principal of each school in the district shall establish and prominently publicize to students, staff, volunteers, and parent(s)/guardian(s), how a report of bullying or harassment may be filed either in-person or anonymously and how this report will be acted upon. The victim of bullying or harassment, anyone who witnessed the bullying or harassment, and anyone who has credible information that an act of bullying or harassment has taken place may file a report of bullying or harassment. A school employee, school volunteer, student, parent(s)/guardian(s) or other persons who promptly reports in good faith an act of bullying or harassment to the appropriate school official and who makes this report in compliance with the procedures set forth in the district policy is immune from a cause of action for damages arising out of the reporting itself or any failure to remedy the reported incident. Submission of a good faith complaint or report of bullying or harassment will not affect the complainant or reporter’s future employment, grades, learning or working environment, or work assignments.
 - C. Any written or oral reporting of an act of bullying or harassment shall be considered an official means of reporting such act(s). Reports may be made anonymously, but formal disciplinary action may not be based solely upon an anonymous report.
- (4) The investigation of a reported act of bullying or harassment is deemed to be a school-related activity and begins with a report of such an act:
- A. The principal or designee will select a designee(s), employed by the school, trained in investigative procedures to initiate the investigation. The designee(s) may not be the accused perpetrator (harasser or bully) or victim.
 - B. Documented interviews of the victim, alleged perpetrator, and witnesses shall be conducted privately, separately, and are confidential. Each individual (victim, alleged perpetrator, and witnesses) will be interviewed separately and at no time will the alleged perpetrator and victim be interviewed together.
 - C. The investigator shall collect and evaluate the facts including but not limited to
 1. description of incident(s) including nature of the behavior;
 2. context in which the alleged incident(s) occurred, etc.;
 3. how often the conduct occurred;
 4. whether there were past incidents or past continuing patterns of behavior;
 5. the relationship between the parties involved;
 6. the characteristics of parties involved (i.e., grade, age, etc.);

7. the identity and number of individuals who participated in bullying or harassing behavior;
 8. where the alleged incident(s) occurred;
 9. whether the conduct adversely affected the student's education or educational environment;
 10. whether the alleged victim felt or perceived an imbalance of power as a result of the reported incident; and
 11. the date, time, and method in which the parent(s)/guardian(s) of all parties involved were contacted.
- (5) Whether a particular action or incident constitutes a violation of this policy requires a determination based on all the facts and surrounding circumstances and includes
 - A. recommended remedial steps necessary to stop the bullying and/or harassing behavior; and
 - B. a written final report to the principal.
 - (6) A maximum of ten (10) school days shall be the limit for the initial filing of incidents and completion of the investigative procedural steps. The highest level of confidentiality possible will be upheld regarding the submission of a complaint or a report of bullying and/or harassment, and the investigative procedures that follow.
 - (7) The process to investigate whether a reported act of bullying or harassment is within the scope of the District and, if not, the process for referral of such an act to the appropriate jurisdiction:
 - A. A principal or designee will assign a designee(s) trained in investigative procedures to initiate an investigation of whether an act of bullying or harassment is within the scope of the District.
 - B. The trained designee(s) will provide a report on results of investigation with recommendations for the principal to make a determination if an act of bullying or harassment falls within the scope of the District.
 1. If it is within the scope of the District, move to Procedures for Investigating Bullying and/or Harassment.
 2. If it is outside the scope of the District, and determined a criminal act, refer to appropriate law enforcement.
 3. If it is outside the scope of the District, and determined not a criminal act, inform parent(s)/guardian(s) of all students involved.
 - (8) Procedure for providing immediate notification to the parent(s)/guardian(s) of a victim of bullying or harassment and the parent(s)/guardian(s) of the perpetrator of an act of bullying or harassment as well as notification to all local agencies where criminal charges may be pursued against the perpetrator:
 - A. The principal, or designee, shall promptly report via telephone, personal conference, and/or in writing, the occurrence of any incident of bullying or harassment as defined by this policy to the parent(s)/guardian(s) of all students involved on the same day an investigation of the incident(s) has been initiated.
 - B. Notification must be consistent with the student privacy rights under the applicable provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA).
 - (9) If the bullying incident results in the perpetrator being charged with a crime, the principal, or designee, shall by telephone or in writing by first class mail, inform parent(s)/guardian(s) of the victim(s) involved in the bullying incident about the Unsafe School Choice Option (No Child Left Behind, Title IX, Part E, Subpart 2, Section 9532) that states "...a student who becomes a victim of a violent criminal offense, as determined by State law, while in or on the grounds of a public school that the student attends, be allowed to attend a safe public school within the local educational agency, including a public charter school."
 - (10) Once the investigation has been completed and it has been determined that criminal charges may be pursued against the perpetrator, all appropriate local law enforcement agencies will be notified by telephone and/or in writing.
 - (11) Procedure to refer victims and perpetrators of bullying or harassment for counseling:
 - A. A teacher or parent(s)/guardian(s) may request informal consultation with school staff (specialty staff, e.g., school counselor, school psychologist, etc.) to determine the severity of concern and appropriate steps to address the concern in any bullying incident (the involved students' parent(s)/guardian(s) may be included).

- B. School personnel or the parent(s)/guardian(s) may refer students to the school intervention team (or equivalent school-based team with a problem-solving focus) for consideration of appropriate services. (Parent(s)/guardian(s) involvement is required at this point.)
 - C. If a formal discipline report or formal complaint is made, the principal or designee must refer the student(s) to the school intervention team for determination of counseling support and interventions. (Parent(s)/guardian(s) involvement is required at this point.)
 - D. The intervention team may determine appropriate intervention and assistance that includes:
 - 1. Counseling and support to address the needs of the victims of bullying or harassment;
 - 2. research-based counseling/interventions to address the behavior of the students who bully and harass others (e.g., empathy training, anger management); or
 - 3. research-based counseling/interventions, which include assistance and support, provided to parent(s)/guardian(s), if deemed necessary or appropriate.
- (12) Procedure for including incidents of bullying or harassment in the school's report of data concerning School Safety and Discipline Data required under Section 1006.09(6), F.S.
- A. The report shall include each incident of bullying or harassment and the resulting consequences, including discipline and referrals. The report shall include, in a separate section, each reported incident of bullying or harassment that does not meet the criteria of a prohibited act under this section with recommendations regarding such incidents:
 - 1. The District will utilize Florida's School Environmental Safety Incident Reporting (SESIR) Statewide Report on School Safety and Discipline Data, which includes bullying/harassment as an incident code as well as bullying related as a related element code. The SESIR definition of bullying/harassment is unwanted and repeated written, verbal, or physical behavior, including any threatening, insulting, or dehumanizing gesture, by an adult or student that is severe or pervasive enough to create an intimidating, hostile, or offensive educational environment, cause discomfort or humiliation, or unreasonably interfere with the individual's school performance or participation.
 - 2. If a bullying and/or harassment incident occurs then it will be reported in SESIR with the appropriate code. If the bullying/harassment results in a SESIR incident, the incident will be coded appropriately using the relevant incident code and the related element code.
- (13) Discipline and referral data will be recorded in the District's Student Information System.
- (14) The District will provide bullying incident, discipline, and referral data to the Florida Department of Education in the format requested, through Survey 5 from Education Information and Accountability Services, and at designated dates provided by the Department.
- (15) Procedure for providing instruction to students, parent(s)/guardian(s), teachers, school administrators, counseling staff, and school volunteers on identifying, preventing, and responding to bullying or harassment:
- A. The District shall endeavor to ensure that schools sustain healthy, positive, and safe learning environments for all students. It is important to change the social climate of the school and the social norms with regards to bullying. This requires the efforts of everyone in the school environment – teachers, administrators, counselors, school nurses, other non-teaching staff (such as bus drivers, custodians, cafeteria workers, and/or school librarians), parent(s)/guardian(s), and students.
 - B. - A. The principal or designee shall by telephone and/or in writing report the occurrence of any incident of bullying as defined by this policy to the parent(s)/guardian(s) of all students involved on the same day an investigation of the incident has been initiated. According to

the level of infraction, parent(s)/guardian(s) will be notified by telephone and/or writing of actions being taken to protect the child; the frequency of notification will depend on the seriousness of the bullying or harassment incident. Notification must be consistent with the student privacy rights under the applicable provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA).

The Superintendent shall also make all contractors contracting with the District aware of this policy.

Workers’ Compensation Procedures Procedures for Medical Care Under Workers’ Compensation

1. I understand that my employer has an arrangement for the treatment of job-related injuries or illnesses. The company responsible for directing the care is CORVEL.
2. I understand that for life threatening emergencies, someone should call 9-1-1. Otherwise, if I am injured on the job, I am to report this to my supervisor immediately. Either my supervisor or I must call CORVEL toll-free at 1-800-906-4461 for treatment authorization.
3. I understand that for job-related injuries:
 - I must go to the physician(s), clinic(s), or facilities assigned by CORVEL except for medical emergencies.
 - CORVEL will authorize all hospital admissions, surgeries, physician visits, and other necessary medical care. If a service is not authorized, it will not be covered under my employer's workers' compensation policy.
 - I understand that I am to receive medical treatment from a CORVEL-approved provider and that failure to do so will make me responsible for the payment of medical expenses incurred.
 - I can call CORVEL at 1-866-494-6631, 24 hours a day, seven days a week, with any questions.
 - I shall be required to take a post-accident/injury alcohol and drug test. If I test positive, I may be subject to discipline and may lose benefits under workers' compensation and any claim(s) for unemployment may be denied.
4. I understand that my employer has a light-duty return-to-work policy for injured employees under workers’ compensation. CORVEL treating physicians will coordinate my return to the job as soon as possible. I understand that normal duties may be modified to accommodate my condition and any such modifications will be consistent with any applicable legally imposed requirements.
5. I authorize CORVEL, my treating provider, the drug testing laboratory or MRO, their designee, officers, agents, or employers, to release medical information, including drug test results, to each other as appropriate, or a third party, in connection with any proceeding that results from an accident or injury to which I am involved.

THE SCHOOL DISTRICT OF ESCAMBIA COUNTY

HIPAA NOTICE

The privacy provisions of the federal law, the **Health Insurance Portability and Accountability Act of 1996 (HIPAA)**, establish standards to protect the confidentiality of a person's protected health information (PHI). The privacy rule applies to everyone, not just human resources and benefits administration.

The Escambia County School District (ECSD) is committed to protecting the privacy of members' health information and complying with applicable federal and state laws that protect the privacy and security of members' health information. The Superintendent or designee will serve as the Escambia County School District Privacy Officer. The Superintendent or designee will develop procedures to protect certain confidential health information known as protected health information or PHI. An employee's PHI will not be used or disclosed without a written authorization from the employee, except as permitted by federal and state information privacy laws. For employee benefits, the Privacy Officer is listed below.

Our Privacy Pledge

Our privacy policy and practices will protect certain confidential health information known as "protected health information" (PHI). An employee's PHI will not be used or disclosed without written authorization from the employee, except as permitted by federal and state health information privacy laws.

What does the HIPAA Privacy Rule protect?

The HIPAA Privacy Rule protects the privacy of health information obtained or created by covered entities (e.g., health plans, health plan providers, and health care administrators). In addition, the HIPAA Privacy Rule was designed to prevent health information from being used against employees by their employers for employment-related purposes.

What Is Protected Health Information (PHI)?

Protected health information (PHI) is any information that describes the past, present, or future physical or mental health or the condition of an employee, the provision of health care to an individual, or the payment of a past, present, or future health care claim. This information can take any form—written on paper, displayed or stored in a computer, or spoken in conversation.

Which benefit plans are covered by the HIPAA Privacy Rule?

The HIPAA Privacy Rule covers the following benefits plans:

- Medical plans (including prescription drug and mental health)
- Dental Plans
- Vision Plan
- Health Care Reimbursement Account (HCRA)
- Employee Assistance Program (EAP)
- Patient Services acquired at the District Health Center

What Is PHI?

PHI is health information that can identify a person and shows:

- Date of birth
- Gender
- Medical records number
- Health plan numbers
- Address, ZIP code
- Phone number, e-mail address, fax number, IP address
- License numbers
- Full face photographic images
- Social Security number

When is individual authorization required for disclosure of health information?

Covered entities must obtain an individual's authorization to use or disclose that person's protected health information for non-routine purposes, such as for employment decisions and eligibility or enrollment determinations, or other non-health purposes. Individual authorization is *not* required for routine use or disclosure. This allows health plans, health care clearinghouses, and health care providers to use and disclose health information for routine health care treatment, payment, or health plan operations without first obtaining a patient's authorization. Under

HIPAA, an authorization is an individual's permission for a Covered Entity to use PHI for specified purposes, other than for payment, treatment, or operations, or to disclose PHI to a third party.

When does the Privacy Rule *not* apply? When can I disclose PHI?

The HIPAA Privacy Rule covers our day-to-day processes and procedures, departmental operations, and information technology methods. Specifically, we must:

- Ensure that the insurance carriers or ECSD provide a notice to new employees and participants of the covered health plans that describe their privacy rights and how PHI may be used or disclosed.
- Ensure compliance with HIPAA policies and procedures to safeguard the PHI we maintain or are able to access.
- Inform employees who have questions about the HIPAA policies or procedures to contact the Employee Benefits Privacy Officer who is responsible for ensuring the Privacy Rule is followed.
- Train new employees on the HIPAA policies and procedures and their PHI rights.
- Ensure that our plans are compliant, and that we have obtained assurances from our business associates that they have compliant policies and procedures in place regarding the PHI of our employees and plan participants.
- Review the collection, storage, and use of PHI within our day-to-day operations.
- Monitor safeguards to protect the privacy of PHI. Potential safeguards include:
 - Administrative safeguards such as procedures for the monitoring of our internal flow of PHI and enforcement of complaint and discipline policies;
 - Technical safeguards such as computer firewalls; and,
 - Physical safeguards such as locking doors and filing cabinets and restricting access to spaces where PHI is stored.

Right-To-Know / Hazard Communications

The Escambia County School District will comply with the **Florida Right-to-Know Requirements** in Chapter 252, Florida Statutes, and Florida Administrative Code. These requirements state that the Right-To-Know Poster must be posted in a place for all employees to review. This includes 29 CFR 1910.1200 **Hazard Communication**, 29 CFR 1910.1020 **Access to Employee Exposure and Medical Records**, and annual training requirements relating to chemicals in the workplace, personal protective equipment, and emergency planning. Asbestos Hazard Emergency Response Act

To all employees who work in the schools and buildings under the jurisdiction of the Escambia County School Board: In October 1986, the Asbestos Hazard Emergency Response Act (AHERA) was signed into law. Included in this Act are guidelines for the Environmental Protection Agency (EPA) to establish rules regarding asbestos-containing materials (ACMs) in schools. Specifically, EPA was instructed to address the issues of (1) identifying, (2) evaluating, and (3) controlling ACMs in schools. The final AHERA regulations (rules) became effective December 14, 1987. They are found in 40 CFR 763 Subpart E 763.80-763.99 and have authority under the Toxic Substances Control Act (TSCA).

The School District of Escambia County has available for review and inspection the asbestos management plans for all schools and buildings under the jurisdiction of the Escambia County School Board. The District's plans contain information regarding inspections, abatement activity, response actions, and post-response actions. These plans are available for public review and inspection at each District facility and will be made available upon request through Facilities Planning at (850) 469-5662.

DRUG-FREE WORKPLACE POLICY (School Board Rule 2.37)

- (1) Personnel shall not manufacture, distribute, dispense, possess, be under the influence of, or use alcohol and/or a controlled or harmful substance (as defined in Chapters 893 and 877.111, F.S.) on or in the workplace. This includes but is not limited to any alcoholic substance, any intoxicating or auditory, visual or mental altering chemical or substance or narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, or any other controlled or harmful chemical substance, as defined by federal or state laws or rules, or any counterfeit of such drugs or substances all being collectively referred to as drugs.
- (2) Workplace is defined as the site for the performance of work done in connection with employment. That includes, but is not limited to, any school building or any school premises, any vehicle used to transport students to and from school and school activities off Board property during any school-sponsored or school-approved activity, event, or function, such as a field trip or athletic event, where students are under the jurisdiction of the Board.
- (3) As a condition of employment, each employee shall notify his or her supervisor of his or her conviction of any criminal drug or harmful chemical substance statute no later than five (5) days after such conviction. (Also see 2.43, S.B.R., Self-Reporting of Arrests and Convictions by Employees) An employee who violates the terms of this policy may be non-renewed or his or her employment may be suspended or terminated. However, at the discretion of the Board, such employee may be allowed to satisfactorily participate in and complete a substance abuse assistance or rehabilitation program approved by the Board in lieu of a non-renewal, suspension, or termination. Sanctions and discipline against personnel, including non-renewal, suspension, and termination, shall be in accordance with prescribed Board procedures and shall be commenced within thirty (30) days of receiving notice of an employee's conviction. Within ten (10) days of receiving notice of an employee's conviction in violation of this rule, the Superintendent shall notify the State Department of Education when applicable.
- (4) Pursuant to Section 440.102, F.S., a drug-free awareness program is hereby established and is to be implemented by the Superintendent to inform personnel of the dangers of drug abuse in the workplace, of the Board's policy on maintaining a drug-free workplace, of available drug counseling, rehabilitation, and assistance programs; and of the penalties to be imposed up to termination, for drug abuse violations. As a part of this program, all personnel and applicants for employment shall be given notice of the Board's policy regarding the maintenance of a drug-free workplace in the following form:

NOTICE TO EMPLOYEES REGARDING DRUG-FREE WORKPLACE PROGRAM

YOU ARE HEREBY NOTIFIED that it is a condition of employment that you refrain from the use of illegal drugs or the abuse of legal drugs or harmful chemical substances on or off the job. As part of the Drug-Free Workplace Program the Board has instituted a drug-testing program. It is a violation of the policy of the Board for any employee to manufacture, distribute, dispense, possess, or use illegal drugs, whether in the workplace or away from the workplace including non-working hours. It is also a violation of the policy of the Board of being under the influence of, or use of alcohol and/or a controlled and/or harmful substance (as defined in Chapters 893 or 877.111, F.S.) on or in the workplace. This includes but is not limited to any alcoholic substance, any intoxicating or auditory, visual, or mental altering chemical or substance, or narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, or any other controlled substance, as defined by federal or state laws or rules, or any counterfeit of such drugs or substances all being collectively referred to as drugs or harmful chemical substances. Lawful consumption of alcohol during non-working hours and away from the workplace that does not adversely impact the employee's work performance or fitness for duty is not a violation of the Board's Drug-Free Workplace Program. All employees are subject to drug/alcohol testing. Refusal to submit to a drug/alcohol test may subject the employee to termination and, where on-the-job injury is at issue, loss of workers' compensation medical and indemnity benefits. The Drug-Free Workplace Program adopted by the Board authorizes the following types of drug tests:

- A. Pre-Employment Screening. An employer must require a candidate for employment to submit to a drug test. The employer may use a refusal to submit to a drug test or a confirmed positive drug test as a basis for denial of employment.
- B. Reasonable Suspicion. An employer must require an employee to submit to reasonable suspicion drug testing.
- C. Routine Fitness For Duty. An employer must require an employee to submit to a drug test if the test is conducted as part of a routinely scheduled employee fitness- for-duty medical examination that is part of the employer's established policy or that is scheduled routinely for all members of an employment classification or group.
- D. Follow-up. If the employee in the course of employment enters an employee assistance program for drug-related problems or an alcohol and drug rehabilitation program, the employer must require the employee to submit to a drug test as a follow-up to such programs and on a quarterly, semiannual, or annual basis for up to two (2) years thereafter.
- E. On-the-job Injury. If the employee is injured in the course of employment the employee shall be required to submit to a drug test. Necessary medical care will not be denied pending completion of, or submission to, a drug test.
- F. Post-accident. If an employee operating a District vehicle is involved in an at- fault traffic accident satisfying the parameters defined in the Transportation Department SOP entitled, "Post-Accident Drug/Alcohol Testing," which requirements are incorporated herein by reference, the employee shall be required to submit to a drug/alcohol test. Necessary medical care will not be denied pending completing of, or submission to, a drug test.

All information, interviews, reports, statements, memoranda and drug test results, written or otherwise, received or produced as a result of a drug testing program are confidential communications, but may be used or received in evidence, obtained in discovery or disclosed in any public or private proceedings, as authorized by law.

Employees may confidentially report the use of prescription or non-prescription medications, both before and after being tested. The reports of the use of prescription drugs should include a copy of the medical prescription. Reports may be made to the employee's supervisor, principal or director. Reports must be in writing identifying the use of prescription or nonprescription medications. Attached to this notice is a list of the most common drugs or medications by brand name or common name, as applicable as well as by chemical name, which may alter or affect a drug test. (See Attachment "A")

The Board has instituted an employee assistance program providing alcohol and drug rehabilitation. Employees seeking information or assistance through the program should contact the Director of Risk Management for further information.

Pursuant to Section 440.102(3)(a)8, F.S., an employee or job applicant who receives a positive confirmed drug test may contest or explain the result to the medical review officer (MRO) within five (5) working days after written notification of the positive test. If an employee or job applicant's explanation or challenge is unsatisfactory to the MRO, the MRO shall report a positive test result back to the employer. A person may contest the drug test result pursuant to law or to rules adopted by the Agency for Health Care Administration. (See Attachment "B")

The employee or job applicant has the right to consult the testing laboratory for technical information regarding prescription or nonprescription medication. A list of drugs for which the employer will test, described by brand names or common names as applicable, as well as by chemical names, is attached to this notice. (See Attachment "C")

In addition to the right of the employee to challenge or contest the results of any drug test, the employee has the right to appeal to the Public Employees Relations Commission or applicable court and may have additional rights under a collective bargaining agreement, if any. Questions regarding the collective bargaining agreement may be directed to the appropriate bargaining unit representative.

The Board is required to report an employee conviction of drug violations occurring in the workplace to the State Department of Education within ten (10) days of receiving such notice, when applicable, and is also required to commence disciplinary action against such employee within thirty (30) days of receipt of the notice of violation.

~~TOBACCO/COTININE/NICOTINE-FREE HIRING POLICY~~
(School Board Rule 2.47)

- (1) ~~The School District is committed to promoting health, wellness, and disease prevention within the community and to providing a safe, clean, and healthy environment for our employees and citizens. The use of tobacco/cotinine/nicotine products is a known and established hazard to the health and well-being of those who use them as well as those around them. The health problems created by the use of these products contribute to the increase in health care costs and the rise in insurance premiums. Use of tobacco/cotinine/nicotine products has been shown to decrease employee productivity and efficiency, and increase absenteeism. It is in recognition of these factors that the District is taking measures to develop a tobacco/cotinine/nicotine free workforce. The School Board hereby establishes a tobacco/cotinine/nicotine free hiring policy for all individuals applying for any position which qualifies for insurance benefits within the District. It is the intent of this policy that employees hired in insurance benefit eligible positions after the effective date of this policy must successfully pass a tobacco/cotinine/nicotine test and remain tobacco/cotinine/nicotine free for the duration of their employment.~~
- (2) ~~For the purposes of this policy, tobacco/cotinine/nicotine is defined to include any products that may include tobacco/nicotine and are intended or expected for human use or consumption, including but not limited to, any lighted or unlighted cigarette, cigar, pipe, bidi cigarette, clove cigarette, hookah, and any other smoking product; and spit tobacco, also known as smokeless, dip, chew and snuff, twist in any form (i.e. lozenges, strips, patches, pouches, pills, etc.), to also include forms of electronic nicotine delivery system devices such as but not limited to e-cigarettes and vaping.~~
- (3) ~~It is the responsibility of the applicant to recognize the use of tobacco/cotinine/nicotine products and the potential for an unfavorable test result. If an applicant receives an unfavorable test result for tobacco/cotinine/nicotine, the individual is not eligible for permanent employment for six (6) months following the test collection date. After six (6) months has passed, the applicant is eligible to reapply for permanent positions.~~

Employee Use of Social Media (*Excerpt from S.B.R. 2.05*)

Purpose

As a leader in using technology as an accelerator of learning, the District recognizes the value of teacher inquiry, investigation, and innovation using new technology tools to enhance the learning experience. The District also recognizes its obligation to teach and ensure responsible and safe use of these technologies.

This policy addresses employees' use of publicly available social media networks including: personal Web sites, Web logs (blogs), wikis, social networks, online forums, virtual worlds, and any other social media. While the District takes no position on the employees' decision as to the legal and ethical participation in the use of social media networks for personal use on personal time, please be mindful of District and State Code of Ethics while online.

General Statement of Policy

The District recognizes the importance of online social media networks as a communication and e-learning tool. Toward that end, the District provides password-protected social media tools for all District-approved technologies for e-learning and encourages use of District tools for collaboration by employees. However, public social media networks, outside of those sponsored by the District, may not be used for classroom instruction or school-sponsored activities without the prior authorization of the Superintendent or designee. It is in the employee's best interest to avoid posting any information or engaging in communications that violate state or federal laws or District policies.

The line between professional and personal relationships is blurred within a social media context. When employees choose to join or engage with District students, families, or fellow employees in a social media context they are advised to maintain their professionalism as District employees and to observe their responsibility for addressing inappropriate behavior or activity on these networks, including requirements for mandated reporting.

Requirements

As set forth in the District's Vision, all employees are expected to serve as positive ambassadors for our schools and to remember they are role models to students in this community. Because readers of social media networks may view the employee as a representative of the schools and the District, it is in the employee's best interest to observe the following rules when referring to the District, its schools, students, programs, activities, employees, volunteers and communities on any social media networks:

1. It is in the employee's best interest when using any social media network or electronic communication (including texting) and postings, displays, or communications on any social media network, to comply with all state and federal laws and any applicable District policies. Following Florida Administrative Code 6A-10.081, it is in the employee's best interest to be respectful and professional in all communications (by word, image, or other means).
2. Employees should not use their District e-mail address for communications on public social media networks that have not been approved by the District. Employees must make clear that any views expressed are the employee's alone and do not necessarily reflect the views of the District. Employees may not act as a spokesperson for the District or post comments as a representative of the District, except as authorized by the Superintendent or designee.
3. Employees may not disclose information on any social media network that is protected by law, confidential or proprietary to the District, its students, or employees or that is protected by data privacy laws.
4. Employees may not use or post the District logo on any social media network without permission from the Superintendent or designee.

This policy will continually evolve as new technologies and social networking tools emerge. It is each employee's responsibility to be familiar with this policy. Staff Responsible Use Guidelines for Technology

The Escambia County School District makes a variety of communications and information technologies available to District staff through computer/network/Internet access. These technologies, when properly used, promote educational excellence in the District by facilitating resource sharing, innovation, and communication. Illegal, unethical or inappropriate use of these technologies can have significant consequences, harming the District, its students and its staff. These Responsible Use Guidelines are intended to minimize the likelihood of such harm by educating District staff and setting standards that will serve to protect the District. The District firmly believes that digital resources, information, and interaction available on the computer/network/Internet far outweigh any disadvantages.

Mandatory Review. To educate District staff on proper computer/network/Internet use and conduct, users are required to review these guidelines at the beginning of each school year. All District staff shall be required to acknowledge receipt and understanding of all administrative regulations governing use of the system and shall agree in writing to allow monitoring of their use and to comply with such regulations and guidelines. “Staff” shall be used in this document to refer to all District employees, contracted staff, and volunteers.

Availability of Access

Acceptable Use. Computer/Network/Internet access will be used to improve teaching and enhance learning consistent with the District’s educational goals. The District requires legal, ethical and appropriate computer/network/Internet use by all District staff.

Access to Computer/Network/Internet. Computer/Network/Internet access is provided to all District staff. All students will have access to the Internet unless parents request in writing that access be denied. Access to the District’s electronic communications system, including the Internet, shall be made available to staff primarily for instructional and administrative purposes and in accordance with standard operating procedures. Each District computer and public Wi-Fi (available for individuals who bring their own personal devices) has filtering software that blocks access to visual depictions and/or content that are obscene, pornographic, inappropriate, or harmful to minors, as defined by the federal Children’s Internet Protection Act (CIPA). Filtered Internet access is provided to students as defined by CIPA. Although the District uses an Internet filter to block inappropriate material, simply because something is not blocked does not mean that it is appropriate. Staff should report any inappropriate material to the Information Technology Department immediately.

Student Internet use is filtered more than staff use. Before requiring students to use online content, staff should confirm that the content is not blocked by the student Internet filter. Staff may request that sites deemed appropriate be unblocked for student use.

Limited personal use is permitted if the use imposes no tangible cost to the District, does not unduly burden the District’s computer or network resources, and has no adverse affect on a staff member’s job performance.

All nonstaff/nonstudent users must obtain approval from the principal or departmental head or designee to gain individual access to the District’s system.

Staff are required to maintain password confidentiality by not sharing their password with others and may not use another person’s system account.

Staff identified as a security risk or having violated the District’s Staff Responsible Use Guidelines may be denied access to the District’s system. Other consequences may also be assigned.

Staff who knowingly bring prohibited materials into the school’s electronic environment will be subject to disciplinary action in accordance with District policies.

Subject to Monitoring. All District computer/network/Internet usage shall not be considered confidential and is subject to monitoring by designated staff at any time to ensure appropriate use. Staff should not use the computer system to send, receive or store any information, including email messages, that they consider personal or confidential and wish to keep private. All electronic files, including email messages, transmitted through or stored in the computer system will be treated no differently than any other electronic file. The District reserves the right to access, review, copy, modify, delete or disclose such files for any purpose. Staff should treat the computer system like a shared or common file system with the expectation that electronic files, sent, received or stored anywhere in the computer system, will be available for review by any authorized representative of the District for any purpose. Personal devices are subject to examination in accordance with these guidelines.

Use of Personal Cellular Devices. The District will provide a filtered, wireless public network to which staff will be able to connect personal cellular devices for instructional and administrative functions. These devices are the sole responsibility of the staff owner. Staff may not download confidential, private, or sensitive information to personal devices (either cellular devices used at school or devices used at home). The campus or District assumes no responsibility for personal cellular devices if they are lost, loaned, damaged, or stolen and only limited time or resources will be spent trying to locate stolen or lost items. Each staff member is responsible for their own personal cellular device—set up, maintenance, charging, and security. District staff will not diagnose, repair, or install software on another staff member’s or student’s personal cellular device. Should inappropriate activities or a security breach be detected, appropriate District staff may examine the staff member’s device. Staff may not use personal desktops, laptops, or tablets at school.

Staff Computer/Network/Internet Responsibilities

Staff will guard and protect access to secure systems by

1. **protecting passwords and other similar authorization information.** Passwords are the primary way in which staff members are authenticated and allowed to use the District's computing resources. Staff will not disclose personal password(s) to any individual, including another staff member. Similarly, staff will not disclose other identifying information used to access specific system information, recognizing that if they do so, they will be held accountable for their actions as well as those of other parties to whom they have given access.

3. **complying with security measures.** Staff must not utilize any hardware or software in an attempt to circumvent the security of any other system, whether internal or external to the District's systems and network. Examples of prohibited activities include (but are not limited to) web proxies, hot spots, bots, Trojan horses, password crackers, port security probes, network snoopers, IP spoofing, and intentional transmission of viruses or worms.

4. **protecting student's right to privacy.** Staff shall not violate the provisions of the Florida K-20 Education Code, or the Family Educational Rights and Privacy Act (FERPA) when dealing with a student's right to privacy. Staff shall not retain student data on personal devices.

5. **protecting employee's right to privacy.** Staff shall not violate the provisions of the Florida K-20 Education Code or the Health Insurance Portability and Accountability Acts (HIPAA) when dealing with an employee's right to privacy. Staff shall not retain employee data on personal devices.

6. **reporting suspicious activity.** Staff shall contact the IT Department at (850) 462-9493 if they have any suspicion that the District's systems have been compromised in any way.

- Compromised user accounts (an example might be needing to change your password when you have not received email notification that it must be changed)
- Computer system intrusion (an example might be believing that a change was made on your computer that you did not do)
- Ransomware infection (an example might be that you are not able to access a file that you should be able to access)
- Unauthorized access to, or use of, systems, software, or data (an example might be seeing others violate this policy)
- Loss or theft of District equipment used to store or work with confidential or sensitive data
- Interference with the intended use of IT resources

Computer/Network/Internet usage is subject to monitoring by designated staff at any time to ensure appropriate use. Electronic files sent, received or stored anywhere in the computer system are available for review by any authorized representative of the District for any purpose and may be subject to Florida public records law. Staff will affirm, in writing, that at all times their actions while using the District's system will not violate the law or the rules of network etiquette, will conform to the guidelines set forth in the Staff Responsible Use Guidelines, and will not violate or hamper the integrity or security of the District's technology system.

If a violation of the Staff Responsible Use Guidelines occurs, staff will be subject to one or more of the following actions

1. revocation of access;
2. disciplinary action;
3. loss of employment with the District; and/or
4. appropriate legal action.

Use of Digital Tools. Staff may participate in District-approved social media learning environments related to curricular projects or school activities and use digital tools, such as, but not limited to, mobile devices, blogs, discussion forums, podcasts, wikis, and on-line meeting sessions.

The use of blogs, wikis, podcasts, and other digital tools are considered an extension of the classroom. Verbal or written language that is considered inappropriate in the classroom is also inappropriate in all uses of blogs, wikis, podcasts, and other District-approved digital tools. Staff who use digital learning tools in their classrooms must monitor student actions to ensure compliance with the *Rights and Responsibilities Handbook*.

Inappropriate Use

Inappropriate use includes, but is not limited to, those uses that violate the law, that are specifically named as violations in this document, that violate the rules of network etiquette, or that hamper the integrity or security of this computer/network/Internet system or any components that are connected to it. The following actions are examples of inappropriate uses and are prohibited:

Identified staff will be issued email accounts. Staff should check email frequently, delete unneeded messages promptly, and stay within the email server space allocations.

Staff shall keep the following points in mind:

Perceived Representation. Using school-related email addresses, blogs, wikis, and other communication tools might cause some recipients or other readers of the email to assume that the staff member's comments represent the District or school, whether or not that was the staff member's intention.

Official school and District Web sites shall be hosted on a District Web server or a District managed hosting service. All staff creating/editing content for display on District Web servers are considered District Web-content contributors.

The District's Information Technology Department is responsible for ensuring that all Web-site content conforms to the guidelines described below, as well the District's overall communications objectives. As such, the Department reserves the right to alter or delete any content contained on a District Web site in order to ensure that it conforms with both Web-site guidelines and the District's communications objectives.

Content Issues

For the requirements below, "content" is defined as text, graphics, media, or other information that is visible and/or audible on a District Web page.

- All content must be approved by principals/department heads or their designees before being posted.
- If any content and/or file on the District Web site exhibits any of the following conditions or presents any of the following problems, the individual responsible for that content will be asked to eliminate the offending condition within a reasonable amount of time. If the condition is not corrected after a reasonable amount of time, the District's Information Technology Department will take action to rectify the situation. Staff who knowingly violate (or promote the violation of) any portion of these guidelines will be subject to disciplinary action in accordance with District policies. Content shall not be displayed if it:
 - ❖ Contains questionable and/or inappropriate material and/or themes.

If these conditions are not met, the individual responsible for those hyperlinks will be asked to eliminate the offending condition within a reasonable amount of time, after which the District's Information Technology Department will take action to rectify the situation. Consequences of Agreement Violation

Any attempt to violate the provisions of this agreement may result in revocation of the staff member’s access to the computer/network/Internet, regardless of the success or failure of the attempt. In addition, school disciplinary action and/or appropriate legal action may be taken.

Denial, Revocation, or Suspension of Access Privileges. The System Administrator and/or building principal, may deny, revoke, or suspend computer/network/Internet access as required, pending an investigation.

Warning

Sites accessible via the computer/network/Internet may contain material that is illegal, defamatory, inaccurate or controversial. Each District computer with Internet access has filtering software that blocks access to sites that are obscene, pornographic, inappropriate for students, or harmful to minors, as defined by the federal Children’s Internet Protection Act. The District makes every effort to limit access to objectionable material; however, controlling all such materials on the computer/network/Internet is impossible, even with filtering in place. With global access to computers and people, a risk exists that students may access material that may not be of educational value in the school setting.

The District will cooperate fully with local, state, or federal officials in any investigation concerning or relating to misuse of the District’s electronic communications system.

Addendum I Email Retention

Electronic mail is subject to the same access and retention requirements as other public records covered by the Florida Public Records Law.

Who Must Retain Electronic Mail? In general, the sender is responsible for retaining internally produced messages. Messages received from sender within the School district are considered duplicates and can be deleted as desired. If the message is sent out in both electronic and paper copy, the sender only has to retain one copy. If an email message originates outside the school district, the recipient's copy is considered to be an original and thus it is the recipient's responsibility to keep the record.

How Messages Should Be Saved? Messages can be saved in one of three ways:

1. Print a paper copy and file by subject and date.
2. Retain messages in an electronic subject folder in text format. These can be opened for viewing in most word processing programs. A unique file name must be assigned to saved email items. Attachments must be saved separately and may be saved in their original file format. They can be open and viewed by launching the program in which the file was originally created. Attachments can be saved using the original file name of the attachment.
3. Messages can be retained by archiving them but this requires software to access the stored documents and attachments.

It is best to print a hard copy of the message because these records can be stored with similar records having the same retention requirements, thus simplifying their disposal. Users who are planning to retire, terminate employment with the District, or transfer to another school or department should review messages in their current Mailbox and Sent Items folders and save those required for records retention purposes. These should be filed with other records being stored for retention/audit purposes. Once these procedures are completed, the original email messages may be deleted.

How Long Email Messages Must Be Saved? The General Records Schedule GS1-SL for State and Local Government Agencies (State of Florida), August 2020, and General Records Schedule GS7 for Public Schools Pre-K – 12 Adult and Career Education, April 21, 2019, published by the Florida Department of State, Division of Library and Information Services, Bureau of Archives and Records Management, sets the guidelines for the retention of specific types of records. The content of the electronic messages determines the disclosure and retention procedures. All schools have copies of these schedules on file, and the schedules may be downloaded from the above Websites.

General Email Categories and Minimum Retention Requirements:

Directory Information OSA*

Job Announcements 180 days after expiration

Meeting Agendas OSA*

Routine Correspondence Three Fiscal Years

*Obsolete, Superseded, or Administrative value is lost. The custodian of the record determines when a record is OSA.

Summary

The majority of email may be deleted after its usefulness. Your main area of responsibility is to save what you send and what you receive from external sources, then use the above chart to decide how long the record should be retained.

The Board provides equal access to the Boy Scouts, Girl Scouts, and other designated youth groups. Complaints alleging violation of this policy shall be made to the Equal Employment Officer (EEO).
